January 2012

To Whom It May Concern,

CarboFix Orthopedics Ltd has worked over the past 10 years with 3BY as a subcontractor. 3BY performs a high level of production, including molding and vacuum forming. We are pleased with their high level clean room services, good professional human skills, accompanied with strict quality control system, storage, final packaging and transportation.

We highly recommend 3BY as subcontractor in the medical manufacturing field.

Thank you,

Oren Globerman

President

Carbo-Fix Orthopedics Ltd
